***DaleBoot USA - An Entrepreneur's
Story of Racing and Pioneering Ski Technology
Presented by Mel Dalebout founder of DaleBoot USA
Tuesday, January 13th * Alta Peruvian Lodge * 4:30 pm***

Mel Dalebout, is a pioneer of ski technology, entrepreneur, and founder of DaleBoot USA the custom boot company. His ski boots are worn by many devotees worldwide and seen all over the mountain at Alta and other ski resorts around the world. A Utah native, Mel won the first ski race he ever entered and, even though he considered skiing his hobby, he became a second alternative for the 1952 Olympic team. An engineer by profession, he wanted a ski boot to act as a machine and built the first foam-fitted ski boot with a fiberglass shell. Mel shares his story as part of his objective to inspire people to achieve their own success.
